

MATH WORKSHOP

Problem Solving and Process Standards, Grades K-6

featuring nationally recognized local scholars Ryan Flessner, Courtney Flessner, John Ulbright and Nicole Caulfield

When:

Saturday, Oct. 27

Grades K-2

Saturday, Nov. 10

Grades 3-6

9 a.m. to 3 p.m. each day

Where:

Butler University
Building/Room TBA

ABOUT US

The Indiana Partnership for Young Writers, a program of the Butler University College of Education, provides ongoing and in-depth professional development in the teaching of reading, writing *and* math to teachers in grades K-8. The Partnership is committed to inquiry-based workshop teaching that sustains students' lifelong academic and workplace success.

Digging Deeply Into Problem Solving: Infusing the Process Standards into Your Math Routine

This workshop builds on the classic Problem Solving Strategies workshop offered in past semesters and earlier this fall. Once you have knowledge of the 14 problem types and various strategies children use to solve these problems, you're ready to dig deeply into daily implementation.

These workshops are divided into grade level bands so that teachers can focus attention on developmentally appropriate problems for their students. The workshop will attend to grade level content standards while infusing the process standards into daily minilessons, independent work, and reflection.

Workshops will be led by Ryan Flessner, professor of math education at Butler University, Courtney Flessner, professor of math education at IUPUI, and John Ulbright and Nicole Caulfield, nationally recognized leaders from Wayne Township schools in Indianapolis.

Oct. 27

Kindergarten with Ryan Flessner and Grades 1-2 with Courtney Flessner

Nov. 10

Grades 3-4 with Courtney Flessner and Grades 5-6 with John Ulbright and Nicole Caulfield.
